Talents	Graphic design,debating
Certificates	
Do you work?-yes	no
Do you work?-no	yes
Name of company	
Do you have a valid driving license	no
Are you willing to travel?	yes

Describe the most significant challenge you have faced and the steps you have taken to overcome this challenge	To me, living in Algeria has always been a challenge. I always had to get things the hard way, but if I had to pick the most significant challenge I have ever faced it would be organizing Dz GeekCon event. My family is against all of these gaming stuff, and refused me doing it in every way. Yet I tried so hard to convince them, I showed them that I am serious about it and kept working on it no matter what. I even made a cosplay in no time just so they see that I am determined and I am willing to do it. Despite the threats I got from my brothers and the fights. It was the most amazing event event ever and I am proud I was a part of organizing it.
You are required to spend the next year of your life in either the past or the future. What year would you travel and why?	I would love to go to the past, because I want to see how things really were and experience them. See the mistakes that were made, and uncover the truths about faked stories and meet my heroes too. I rather not rush to the future i prefer having a view and expectations and specualtions about it. And to do that I should see how certain points in the past were made.
What would you say is your greatest talent or skill? how have you developed and demonstrated that talent over time	I think my greatest skill is motivating others. I always study people as I talk to them and try to get their strong and weak points, and encourage them to go for the strong ones and develop them and provide help when needed. I always see negativity everywhere and I never considered it as a bad thing because it helps me to be positive enough to push others to do their best. I am currently working on a project of a web magazine for female geeks. I gathered a crew of girls with potential I saw in them and made them take tasks they didn't think they can do. A girl was so scared to talk to people I made her the reporter of the Algerian team. And she did great even I was amazed and I hope I will always be supportive and positive and helpful in every possible way.
What have you done to make your school or community a better place	I made a debate club with friends after an event we attended, and it is one of the best things that i ever been part of. We take peoplr who want to practice and learn english, we pick good topics and make them debate. It helped changing minds to the better, and we are working on spreading the culture of conversation in our country.
What makes you happy?	I am a simple person, little things make me happy. If I make someone laugh, or be helpful or be there for anyone in need. Simply being the best version of me and influencing others to be good makes me happy.
How did you hear about The Proteges program	other
Code of ethics and conduct -I agree to the code.	yes
