<b>Describe the most significant challenge you have faced and the steps you have taken to overcome this challenge</b>	The most significant challenge I have faced was public speaking. When I joined MUN (model united nations), we had to talk about political issues, give speeches, and have an open-mind. It was very fun, however, I wasn't strong at public speaking, but as time goes on, and the more I joined conferences, the more I gave speeches. we had practice conferences where we were given to talk about topics in the meeting prior to the conference, looking back at it it was a great opportunity and I gained a lot, from it I faced a challenge and improved a skill.
<b>You are required to spend the next year of your life in either the past or the future. What year would you travel and why?</b>	I would spend it in the future since the future is to allow us to develop as a person learning from our past mistakes. It is another day to take risks and face our fears and try new things
<b>What would you say is your greatest talent or skill? how have you developed and demonstrated that talent over time</b>	my greatest talent is hand lettering, I have seen people from Instagram with nice handwriting, and figured out it was calligraphy and hand lettering and wanted to do it. From that day onwards I would sit for hours practicing to get the correct form and as days passed on, I would get better and better. I started with pens that were easy, then moved to the markers used for hand lettering. Currently, I have done an artwork of a phrase hand-lettered on a canvas for my IB Art class. I am also exploring digital hand lettering.
<b>What have you done to make your school or community a better place</b>	I have done many things to make my school and community a better place. I have joined be the change in my school, which aims to make our school community a better place and make a difference in people's lives, in which we have held events for national day, to celebrate and show pride of our country. I have joined MUN, which is a model united nations, in which we talk about political issues, this allowed me to be a better person and open-minded of other issues in our world. I have also joined INJAZ company program, which was a great experience, this helped me to learn about how a company operates and within a company the departments, it has also taught me to cooperate with people.
<b>What makes you happy?</b>	Being with my family and friends, helping people and seeing people smiling, accomplishing a goal, improve a skill and doing good at school
