Describe the most significant challenge you have faced and the steps you have taken to overcome this challenge	Even though I have suffered from depression I do not think that I went through much of hardships, stuff happened sure. However, the real challenge of my life, the real hardship is me. I am 18 years old (I have just turned 18) my perspective on life is now, I am not afraid to hurt somebody's feeling, let someone down or even fail, I have always brushed it off as life is now, life is today. It is fine to live in now but the best thing about now is that there is another one tomorrow and I am going to make them count.
You are required to spend the next year of your life in either the past or the future. What year would you travel and why?	Future, I have always been driven by curiosity with 1001 questions about the future perhaps the questions will be added more. Also, the past is already over with the mistakes and regrets. If there is a particular year it will be 2050, just to know if the world turned to Bladerunner, the scientific and technological development. We may have a transparent phone or Youtube becomes a holographic show, who knows?
What would you say is your greatest talent or skill? how have you developed and demonstrated that talent over time	Drawing, I have been drawing as long as I remember but I did not draw so much but I saw myself develop more and have less difficulty to put what I imagined on the paper. Recently, I am taking graphic design lessons to better myself.
What have you done to make your school or community a better place	I have been volunteering from 2017, I have volunteered in the summer to the Al-Kharafi Activity Kids Center for the disabled children and the ABC of Kuwait for autistic children they are currently making a monthly picnic for the disabled children starting from last month and I have been volunteering with them since.
What makes you happy?	I am a person with simple taste, my parents are always making me happy, books, movies, and video games. I consider happiness a moment as they come as they go, I prefer satisfaction with your own life and achievements is the ultimate happiness.
