Describe the most significant challenge you have faced and the steps you have taken to overcome this challenge	A significant challenge I have faced in the past was a situation in which I was not able to voice my own opinion in a group assignment. The team I collaborated with were a group of friends who considered me an outsider and disregarded my opinion in all aspects of the project, as they had assumed I lacked knowledge on the subject of Money and Macro Economics; when in fact, I did not. I overcame this challenge by verbally explaining the project to prove my knowledge of the subject to my professor. This resulted in his reply saying that I should not be forced to work with a group where my opinion was ignored, especially with my vast knowledge of the subject. He further suggested to switch groups. However, I decided to stand my ground and stay in the same group and enforce cooperation and teamwork, rather than taking the easy way out and changing teams.
You are required to spend the next year of your life in either the past or the future. What year would you travel and why?	If i could travel one year into the future or the past I would choose to travel back to the early 20th century for a year with the current knowledge that I possess to help develop a society from the ground up. This shall be done in the most practical and resource efficient way possible, in order to preserve raw materials for the years to come.
What would you say is your greatest talent or skill? how have you developed and demonstrated that talent over time	My greatest skill is the ability to grasp concepts quickly, as it has helped me academically when studying for more theoretical subjects in regards to my bachelors in Banking & Finance, such as the Managerial Information Systems course. Furthermore this talent has helped me develop my analytical skills, which in turn aided me in the completion of my tasks accurately and efficiently.
What have you done to make your school or community a better place	In high-school I joined the Go Green Club where we planted 5 trees each in an underdeveloped area in Bahrain to contribute towards the clean air movement, which is a movement that contributed towards establishing the necessary steps to instigate a much more environmentally friendly region.
What makes you happy?	Driving on a big highway listening to music, with no destination in mind and a good group of friends to accompany me.
