Describe the most significant challenge you have faced and the steps you have taken to overcome this challenge	I think the most significant challenge I had to face was discovering who I am as a human being and what I actually want to get and what to give to this world. It was truly a challenge to me in which I had to change myself in order to be the person who I aspire to be. I had to sit and ask myself some really hard questions, set some SMART objective goals and take critical actions towards myself.
You are required to spend the next year of your life in either the past or the future. What year would you travel and why?	I'd like to spend in the future a year from now, so it would be in 2019 and the reason why I chose this year specially is because I want to see whether I did accomplish my 2018 goals or not.
What would you say is your greatest talent or skill? how have you developed and demonstrated that talent over time	I think one of my greatest skills is understanding the person that's in-front of me by listening carefully to him/her while talking and paying attention to their body language as well. It took me a while be good at it and I still am developing this skill , by being patient and listening to the person I'm having a conversation with very carefully.
What have you done to make your school or community a better place	I regularly participate in charity work in which I truly believe that giving back is part of living right. And in order for us to live a good healthy lives we must help others.
What makes you happy?	Helping others when help is needed, and making them smile makes me happy
