Describe the most significant challenge you have faced and the steps you have taken to overcome this challenge	I am sorry to say this but Alhumdullah i was born with a golden spoon. i don't count my everyday problems as challenges because there are people in the real world suffering from hunger and diseases. Some of them just trying to stay alive. Everyone goes through simple challenges everyday.
You are required to spend the next year of your life in either the past or the future. What year would you travel and why?	I would travel into the future 20 years ahead when i am stable and i want to see myself successful. I want to be able to change another persons life. So by age 43, i want to see myself open a school for unprivileged children which had been operating for years. Education is the only way, one can change their thinking and way of living, I just want to meet my students and hear their success stories because that will make me happy more then anything.
What would you say is your greatest talent or skill? how have you developed and demonstrated that talent over time	My drawing skills, i always drew as a child and practiced it everyday. I find drawing as a way of relaxing myself from all my worries.
What have you done to make your school or community a better place	Graduating from university, hence one more educated citizen for the country and now i am able to pass on my knowledge to the world.
What makes you happy?	My family and cats
How did you hear about The Proteges program	other
