Describe the most significant challenge you have faced and the steps you have taken to overcome this challenge	The most significant challenge I have faced was improving my grades. What I did is that after each report card I thought how did I do this bad? Since middle school I have been trying to improve my grades until now in grade 11 which I finally achieved grades I desired. What I did was push myself even if I didn't see progress I would still continue, I would keep myself away from anyone and anything that would distract me until I began to see progress. So I continued and managed to achieve good grades, but even after I achieved good grades I didn't stop I still went on because I wanted to break my limits and set new records for myself.
You are required to spend the next year of your life in either the past or the future. What year would you travel and why?	Now this being quite the critical thinking question, I would spend the next year of my life in the future the year 2028, 10 years from now to be specific. Now the reasons for this would be to see who I've become, how did things change, can this future be changed. Essentially I want to go so I can observe what 10 years have done to the world and how did it change it. Also I've lived the past and I've learned from my mistakes which is why I don't want to go back, as I don't like looking back at what I didn't do right but rather look at what can I do with that lesson I learned from that experience.
What would you say is your greatest talent or skill? how have you developed and demonstrated that talent over time	My greatest skill/talent would be my ability to get over failure. I have developed that ability when I failed a lot in life, examples of that would be seeing bad grades, or working hard on something and all the work goes to waste. Situations like those would devastate me at first but then I would quickly get over it because I realize that things like that shouldn't scar me but rather teach me a lesson which is why I can quickly get over it.
What have you done to make your school or community a better place	Personally I feel that I've made my school a better place for me at least by being a nice person, showing respect to others, having a smile on my face, and helping other people out even if they deserve it or not. Personally if I can go to school and do all those things I feel that it's a better place.
What makes you happy?	There are a couple of things that help me achieve the happiness I desire. One thing that makes me happy is seeing good results on something I've put effort into it. Other things that make me happy is, making somebody's day better, being with people who are kind, supportive, and understand me and my situation, and when people are there for me. Those things make me happy.
