Describe the most significant challenge you have faced and the steps you have taken to overcome this challenge	Dealing with my insecurities and fears. And i have overcome some of them by seeking an advice from a mentor who had experienced the insecurities and went over the process to overcome my problems
You are required to spend the next year of your life in either the past or the future. What year would you travel and why?	I actually dont like to stick into two options while i have a third choice, which is now. If i went back to the past with my present mentality, nothing would challenge me and i would deal with every challenge easily, therefore my life would be boring. And if i chose the future with my current mentality. Would struggle a lot too. So present is perfect
What would you say is your greatest talent or skill? how have you developed and demonstrated that talent over time	Recently i discovered that i have a good discipline and self control. In the past i used to wuit so easy. But i think i tend to persevere more
