Describe the most significant challenge you have faced and the steps you have taken to overcome this challenge	Being abroad for a full month in summer school, I had to take full responsibility to make my sister feel better and comfort her when she went homesick. It was a very challenging responsibility to make her feel comfortable, safe and show her that I'm there for her. I played different roles, so, I tried to be with her as much as possible, cook for her, remind her about the good times that we had with our parents and how by being here we can be stronger and learn new things that will make our parents proud of us. In no time and with the extra support that I have provided her, she managed to feel better and enjoy the summer camp the way it should be.
You are required to spend the next year of your life in either the past or the future. What year would you travel and why?	I will chose the future. The past is the past, you move on, you make mistakes, learn from them and plan to make the right decisions next time. Traveling to the future is where I will spend my next year, I will plan before I make any action, I will ask before taking any action to learn, I will make a move, and do whats right when I'm confident about the results.
What would you say is your greatest talent or skill? how have you developed and demonstrated that talent over time	Public speaking is my greatest skill. Since I was younger, I loved going to the stage and talking to hundreds of people. In school, I always volunteer to give speeches about different topics. As time passed, I have learned that when it came to public speaking I should know my audience, the speech is about them, about giving them advice, its not about me.  I developed this skill by preparing and practicing before making any actions because it made me realize what are my mistakes and it also made me more confident about myself. Public speaking has improved my communicating skills.
What have you done to make your school or community a better place	I was a student council and by being one I have created a bridge between students needs and schools roles and regulations.  In order to make the school a happy place for students, I have worked closely with them to make their voice heard, especially when I managed to negotiate placing vending machines in the cafeteria.
What makes you happy?	Bringing happiness into peoples life through helping them
How did you hear about The Proteges program	Social media
