<b>Describe the most significant challenge you have faced and the steps you have taken to overcome this challenge</b>	Most of the significant challenges I've faced have been in University or related to it. Including forming a new social circle with people coming from different environments, almost a culture shock. But perhaps the most significant challenge was struggling with calculus and failing multiple times, being told to give up and change majors but kept going. Among many things, failure has taught me perseverance, and changed how I study.
