<b>Describe the most significant challenge you have faced and the steps you have taken to overcome this challenge</b>	when my brother gone i was 12 year old i didn't accept the idea of i'm not going to see him again but i had faith that what was god wants so i have to be patient and thank him for everything and i'm going to see him again but not here in heaven enshallah. also i have one more challenge that made me stronger it was in last year at my graduate grade i didn't get the marks that i wanted to have for studying architect so i decided to redoing my grade to get higher marks to join the university that i dreamed about whole my life to be the engineer who my parents will be proud of i faced lots of pressure, disappointment days and people who frustrated me about how i'm going to waste one year of my life to study again at high school and my friends will be at university or college i didn't give up and answered them that if i joined the university that my marks decides then i'll waste my life in the future of something that i don't like to be but if i waste one year and join whatever i want i'll be happy and proud of who am i so now i'm in my challenge and doing well for my future life and i'll be the engineer who the world will know her.
<b>You are required to spend the next year of your life in either the past or the future. What year would you travel and why?</b>	i'm not going to choose the future because it's coming and not the past because it's already past so i won't travel to anywhere i'll keep going in the present and focus on it because it will builds the future.
