Describe the most significant challenge you have faced and the steps you have taken to overcome this challenge	School grades, I was accompanied by some really bad colleagues that influenced me negatively for the longest time I remember which made me in effect get low grades however, I removed those people from my life completely and in effect changed my life a 180 degrees. I studied more and achieved grades that I thought was impossible at the time and also changed everything regarding my life to something better or at least something more positive.
You are required to spend the next year of your life in either the past or the future. What year would you travel and why?	I think I would go to the past, for example the 1900s as like I said I am a tech nerd and tech is one of my passions so I wanted to see how people lived at the time where technology was not available or wasn't anybody's concern as unfortunately at this day and age I don't think anyone can live without their "smartphone" and their other "accessories". Therefore in my opinion it will change my perspective drastically regarding this topic.
What would you say is your greatest talent or skill? how have you developed and demonstrated that talent over time	I think like I said it is technology I read a lot about this topic and that is what made me develop it and I don't think anybody asked me a question regarding the topics that I read and I could not answer their question. However, I like to read other topics as well but that is the main one.
What have you done to make your school or community a better place	I always try to emit positive energy and be kind to everybody and give help in any way that I can. However, what I am doing is not something special. As these are the traits that I got raised with.
What makes you happy?	Many things, I feel happy when I save up and get something that I wanted or when I can see that I improved myself in any way or that I know that because of me I made someone smile or made their day and most importantly I feel happy that both of my parents are proud that I am their son.
How did you hear about The Proteges program	other
