Education

Salah Al Dean Al Ayoubi High School.
Department: Arts
GPA: 73%

Skills

Teamwork
Negotiation
Planning
Project Management

Qualifications

Fluent in Arabic
Intermediate in English

Past Experiences

I have had experiences in working and volunteering in the past and they are among different fields:

- I have volunteered at the Kuwait Disabled Club where I was working with the

administration; my work revolves around updating members' information on the system, answering any questions by parents and people whom are interested and organizing papers.

- In addition, I volunteered at the General Authority for Youth and Sports where I was assigned to work with the ministry of defense to organize elections and for it to go smoothly with no issues at schools.
- Moreover, I worked with alshaya in debnham where I used to help store staff, learn from them while there were engaging with customers and providing the best customer service possible.
- Furthermore, at a very young age I enrolled myself at the reform society here in Kuwait. Where at 14 I traveled with a group of young boys to Malasiya and I was the leader of the trip and with the help of the supervisor I have organized all aspects of the trip. I learnt how to be independent by the amazing adventures and challenges I had to deal with overseas.
- Lastly and recently, I worked at Al Rawda co-op where I had an idea of the nature of work, answering shoppers questions and knowing the place of all the items to direct/inform them the place of what they need. Responding to people's queries and questions. I was even also included in their yearly process in dividing the stock and inventory.
- Moreover, I worked at Kuwait International Airport as a facility officer where my responsibility was to arrange the lines for people who are boarding and if any of the travelers have issues with their luggage's weight that needs to be sorted out. If there is any problem that they might face as travelers they are free to come to us for assistance. I served at the airport for 3 months. Bottom line, I had to make sure that the traveler's journey up until he/she sits on the plane goes as smooth as possible.
- I worked for a month in kidzania that is under Al Shaya franchise. My work depends on the type of department I get placed at. There are four departments and every week they transfer me to a different department and my work is according to the departments' needs and criteria.
