Talents	outstanding presentation and public speaking skills, teaching
Certificates	www.123formbuilder.com/upload_dld.php?fileid=6d6ea799924833bd1b0a098d1d945922
Do you work?-yes	no
Do you work?-no	yes
Name of company	
Do you have a valid driving license	yes
Are you willing to travel?	yes

Describe the most significant challenge you have faced and the steps you have taken to overcome this challenge	The most significant challenge I have faced was dealing with time management. I used to take 5 classes at Gust as well as partaking a tutor position. I also worked 3 hours of private tutoring at a private institute. I attended classes at the gym and taught my siblings at home. Balancing between school, teaching, and my own life was quite challenging at first. As much as I loved what I do, I had no free time for myself. I then learned that I must organize a schedule for myself in order to be able to find the right time for everything. This definitely had a positive result on my life as it arranged my daily schedule as well as provided me with extra time for my self.
You are required to spend the next year of your life in either the past or the future. What year would you travel and why?	I would certainly travel to the future. Anything I have experienced in the past is either a beautiful memory or a lesson in which I learn from. Therefore, I believe that to build a better self is to always look forward and aim higher. I would travel to the future to see what accomplishments I have attained and what I have become.
What would you say is your greatest talent or skill? how have you developed and demonstrated that talent over time	My greatest talent/skill would be teaching and public speaking. As an English Education student, my 4 years at GUST consisted of presentations, workshops, conferences and teaching which involved public speaking and communicating with different individuals from different backgrounds. During the years I believe that the skill of presenting and being able to teach diverse students have engraved the love of what I do even more. Presentations helped me build my character and always increased my self confidence. With every presentation I perform and with every student I teach, I believe that those skills are growing and are now talents I acquire.
What have you done to make your school or community a better place	Something that I would spend my entire life doing is helping others. Therefore, throughout my years at Gust, I have been very dedicated in serving the university with every chance I had. I have worked at the tutoring center, organized several educational events and conferences, participated in seminars and lead many workshops. I also take hold of every opportunity I can to help carve the love of learning in others, so I volunteered at an institute for private tutoring in order to help shape an educated, knowledgeable future generation.
What makes you happy?	I believe that my happiness depends more on the internal factors more than the external. Knowing that my family is happy and seeing their smile makes me happy. Spending time with the people I love and being the reason behind people's smiles makes me happy. Reaching my goals and knowing that I have inspired someone makes me happy. Meeting new people, laughing until my stomach hurts and going on new adventures makes me happy. I also gain a lot of happiness from little things like ice cream, the smell of flower shops and barbeque on a grill, and the feeling I get after I finish the hardest workout.
How did you hear about The Proteges program	Social media
Code of ethics and conduct -I agree to the code.	yes
Terms and Conditions-I agree to the Terms and Conditions.	yes
Application disclaimer -I hereby certify that the information above is true and was fully completed by no one but myself.	yes
