Describe the most significant challenge you have faced and the steps you have taken to overcome this challenge	there is some thing was happened in my life and i consider it as a challenge ,my mother had an operation 4 years ago they remove a tumor from he brain , so on that time she left us alone ,so i overcome that by depending on my self i was responsible for all the home responsibility , so after this situation i trust my self more than what i was before , this situation make me feel more confident on myself.
You are required to spend the next year of your life in either the past or the future. What year would you travel and why?	future, because i want my life to change to be better , i want to be something in the future , i want to do something that no one will forget it.
What would you say is your greatest talent or skill? how have you developed and demonstrated that talent over time	im good in doing any thing , but actually i don't think that i have specific talent or skills
What have you done to make your school or community a better place	This year me and my group member we invented automated attendance system that will help student and instructor in school and collage to reduce the time wasting in taking the attendance , so this will give the student the chance to learn more materials.
What makes you happy?	when i got what i want, when i get high grade , when my parents feel proud of me , when i feel satisfied and comfortable
How did you hear about The Proteges program	Social media
